IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

TRANSMITTAL LETTER

Commissioner of Patents and Trademarks  
Washington, D.C. 20231

Enclosed is a patent application entitled:

ELECTRONIC BALLAST WITH PARALLEL-TUNED OUTPUT CIRCUIT

which application consists of 8 pages of specification,  
12 claims, and 1 sheet of drawings.

Also enclosed is an OATH and a check (#4293) in the amount  
of \$710.00 to cover the filing fee.

Applicant wishes to make it clear to Examiner that he has  
numerous other patents issued and pending. Some of these might  
be considered by Examiner as being material to the examination  
of instant application. However, Applicant has thoroughly learned  
that he can not rely on his own judgment with respect to what  
an examiner might find to constitute materially relevant subject  
matter. Therefore, Applicant requests of Examiner to identify  
for himself which of Applicant's issued and/or pending patents  
might contain subject matter that Examiner would deem to be  
material to the examination of instant application.

A handwritten signature in black ink, appearing to read "Ole K. Nilssen".

Ole K. Nilssen, Pro Se Applicant
